

To whom it may concern,

Please do not allow these banks, credit card companies, and phone companies to call me. I live in Indiana. I pay my bills on time. There is absolutely no reason that these companies should need to call me. I think it is already unfair with the amount of junk mail I get from credit card companies everyday. It has been wonderful the past couple years not having telemarketers and the CBA leaving me alone when I am home. Please do not let them bother me.

Sincerely,

Brett Schwarzentraub Hays
